AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application:

1 – 12. (canceled)

13. (Currently Amended) A method of sending a set of ordered packets composing a single stream to a destination comprising:

    associating a set of destination identifiers with a destination;

    providing a set of ordered packets to be sent to the destination;

    assigning each of the ordered packets a destination identifier from the set of destination identifiers wherein at least two packets of the set are assigned different destination identifiers;

    associating a set of source identifiers with ~~the~~ a source system;

    assigning each of the ordered packets a source identifier from the set of source identifiers wherein at least two packets of the set are assigned different source identifiers; and

    causing the source system to send ~~sending~~ the packets.

14. (canceled)
